

Multifactor Authentication (additional security) enable for Microsoft O365

SLIIT Academy ITSD is pleased to announce that, multifactor authentication (additional security) will be enabled for your **Microsoft O365** account from **24 June 2022**. Once the multifactor authentication is enabled, all services which provided through Microsoft O365 such as email, OneDrive, SharePoint etc, will be secured by second factor additional to your password. Enabling multifactor authentication, security of the account will get enhanced. This will reduce chances to gain access to your SLIIT O365 account by unauthorized parties.
